Subject: Re: Thank You!!

RTD still owns their land but the agreement they have with the city is that they will deed the land over to them in exchange for an easement to park in the Hub. They are waiting for the G-Line to open before transferring the land. The City will then transfer the property to AURA.

Mo,

Is there a reverter clause in the contract with RTD or does Urban Renewal own the Park n Ride? I want to take it away from the city if I can.

I sent an email to each individual council members. They take no responsibility for the Olde Town area. I asked them what their ideas were and some said it was not their job

I wanted to thank you all for coming out Monday night in support of Trammell Crow's project - what an incredibly long commitment that turned out to be! I am sorry about that. I'm also sorry that you were subjected to such rude comments by your fellow citizens, no one deserved that type of treatment.

I'm incredibly disappointed with the vote. I don't know yet what the next steps will be. Bill Mosher needs some time to process what happened and quite frankly needs a break from Arvada. I'm hoping we can convince him to take another run at it but won't know for a while.

I truly appreciate your love and commitment to this community and this organization. Thank you.

Mo
